Foreword

This Errata Document has been produced by WG6 of the O-RAN ALLIANCE e.V.

Modal verbs terminology

In the present document "**shall**", "**shall not**", "**should**", "**should not**", "**may**", "**need not**", "**will**", "**will not**", "**can**" and "**cannot**" are to be interpreted as described in clause 3.2 of the O-RAN Drafting Rules (Verbal forms for the expression of provisions).

"**must**" and "**must not**" are **NOT** allowed in O-RAN deliverables except when used in direct citation.

1 Scope

The present document is an informative document that describes a Non-Backward Compatible change to the apiName for the O2ims_infrastructureMonitoring Service which was inadvertently introduced in O2IMS-INTERFACE-R004-v08.00.

2 References

References are either specific (identified by date of publication and/or edition number or version number) or non-specific. For specific references, only the cited version applies. For non-specific references, the latest version of the referenced document (including any amendments) applies. In the case of a reference to a 3GPP document, a non-specific reference implicitly refers to the latest version of that document in Release 18.

NOTE: While any hyperlinks included in this clause were valid at the time of publication, O-RAN cannot guarantee their long-term validity.

The following referenced documents may be useful for understanding the content the present document.

[i.1] O-RAN WG6: O2ims Interface Specification, v8.0, November 2024

4 O2ims_InfrastructureMonitoring Service apiName

In the O-RAN WG6 O2ims Interface Specification [i.1], the string "O2ims-infrastructureMonitoring" representing the {apiName} for the O2ims_InfrastructureMonitoring Service in clause 3.3.3 "REST resources structure and methods" has been identified as incorrect; the string name was intended to be "O2ims_infrastructureMonitoring" (observe the use of "_" rather than "-"). The next version of the O2ims Interface Specification [i.1] is expected to cite the intended string name rather than the incorrect string name.
